

PAULINA MIROLTA

Power BI Developer | Automation Specialist

Power BI Developer and Automation Specialist with expertise in process automation and advanced analytics. Skilled at transforming data into actionable insights and developing visualizations that support decision-making. Proficient in Power BI, Power Query, and data transformation, with a focus on delivering user-centered reports and dashboards. Known for a rigorous analytical approach, creativity, and the ability to simplify complex data concepts for diverse audiences.

Kraków

Education

Postgraduate studies:
data science

AGH University of Science and
Technology
2018-2019

Master of Mathematics:
financial mathematics

Jagiellonian University
2014-2016

Bachelor of Mathematics:
applied mathematics

Jagiellonian University
2011-2014

Experience

Power BI Developer

04/2022 - Present

ABB Business Services Sp. z o. o.

- Designed and implemented automated reporting solutions in **Power BI** reducing manual reporting time by 70%,
- Developed complex **Power Query** transformations to streamline data processing for multi-source datasets, including **SQL databases** and **Snowflake, Data Cube, or API**,
- Revitalized a Power BI dashboard by replacing complex VBA calculations with efficient **DAX** formulas, significantly boosting performance and reducing repair time by eliminating frequent database resets,
- Crafted storytelling-driven dashboards, transforming data into compelling narratives that not only present key metrics but also provide context and insights,
- Enhanced report interactivity with **DAX measures** and **calculated columns**, enabling **drill-down** capabilities and **data filtering** options or **KPI cards**,
- Trained team members in Power BI best practices, empowering them to build self-service reports.

Hard Skills

 **Programming:** Python
(Streamlit, Pandas, scikit-learn,
Jupyter Notebook, Matplotlib),
SQL, VBA, DAX,

 **Data Visualization:** PowerBi,
MS Excel, Plotly,

 **Modeling:** Logistic regression,
linear regression, Random Forest,

 **Databases:** MySQL,
Snowflake,

 **Other:** Power Automate, Git,
SAP.

Language

English: B2

Interests

- literature popular science, non-fiction,
- data science , machine-learning, Power BI
- interior design.

 Financial Analyst 10/2019 - 03/2022
International Paper Global Business Service Center

- Prepared recurring and ad hoc reports to support business decision-making,
- Co-created **Power BI dashboards** for Business Working Capital, Cash Flow and Sales & Administration, using advanced **DAX formulas**, **aggregation tables**, and custom **Waterfall charts**. These solutions reduced report creation time and eliminated errors from previous Excel-based processes, improving both efficiency and data accuracy,
- Analyzed financial data to identify trends and provide actionable insights for improving cash flow and working capital management,
- Automated routine financial tasks and processes, enhancing efficiency and reducing manual errors.

 Accounts Payable Accountant 03/2016 - 2019
Philip Morris International SCE

- Posted PO, non-PO invoices in the **SAP ERP** and **SIRIUS**,
- Performed **accounts reconciliation** and prepared **financial reports**,
- Created and implemented **VBA macros** to streamline processes.

Certifications & Courses

- Completed the **DAX Mastering course by SQLBI**, which strengthened my understanding of DAX, particularly in row and filter context transitions, enabling me to build efficient data models and optimized Power BI reports.
